Global Green Property Services Directory is aimed at the real estate community and seeks to link contractors and suppliers with property and operations managers, engineers, brokers, and realtors.

Target Market and Circulation: The real estate and investment management community, which is comprised of over **one million members**, including but not limited to:

- Property managers
- Investment Managers
- Vendors
- Service Providers
- Operation Managers
- Facilities Managers
- Engineers
- Real estate Brokers

HOW GLOBAL GREEN'S DIRECTORY WORKS?

Members of the construction and real estate industry use our directory to find environmentally friendly vendors, contractors, hotels, interior designers, architects, landscapers, and real estate brokers, etc.

By bringing ecologically aware businesses to consumers, we are encouraging green growth in all of our industries.

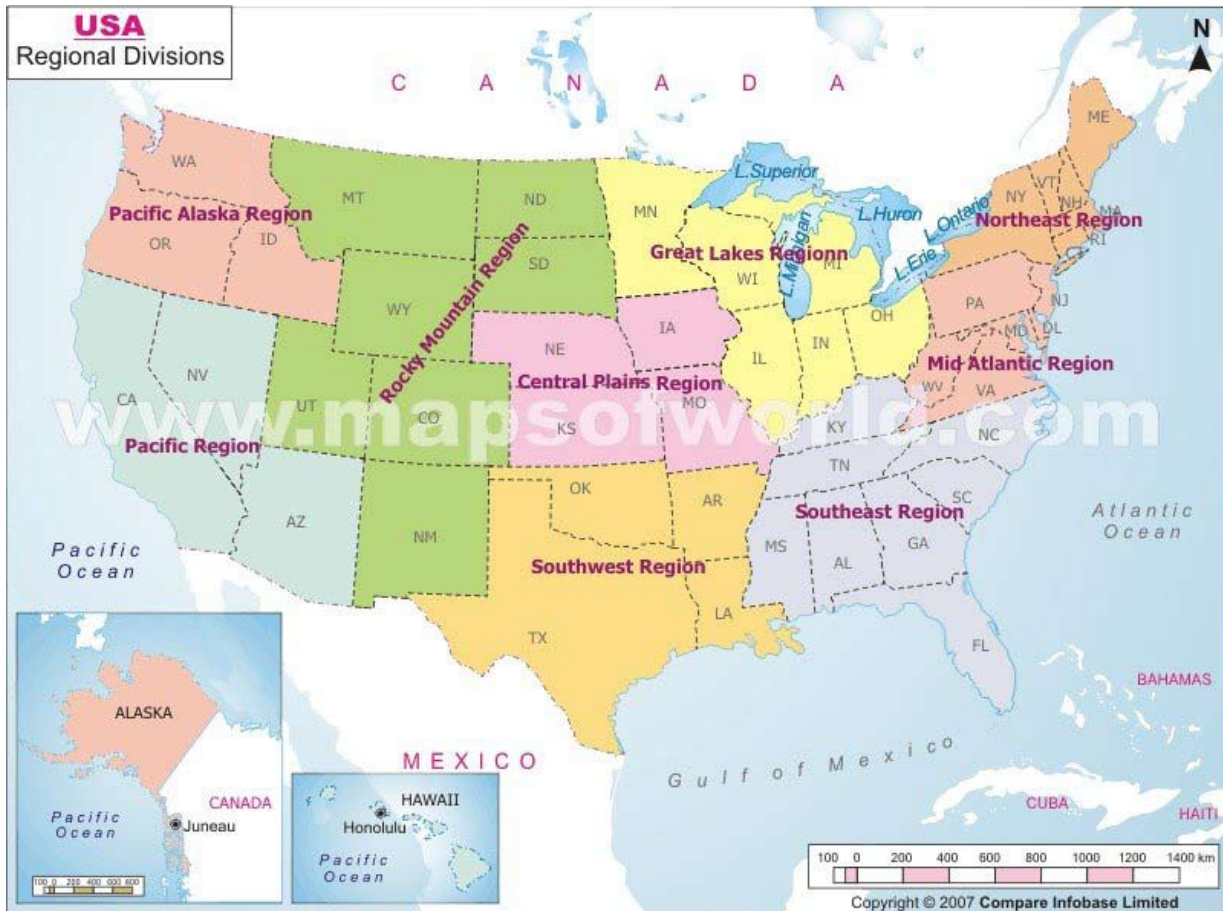

Benefits

-
- The monthly newsletter will have a target audience of 500,000 members. Each newsletter will feature our directory subscribers and their success articles.**
-
- The directory is organized by state for ease of use to quick searches.**
-
- The site gives consumers direct access to each company featured in the directory by linking direct their respective websites.**
-
- The directory offers consumers details about each company's "Green" practices, products, and services.**
-
- The directory offers users a way to solicit a bid/estimate from anyone in the directory for their services.**
-
- Real estate agents and brokers can advertise and link their contact information to the property tab within the site.**
-
- The directory offers instant generation of additional business subscribers**
-
- The site features a single company on the homepage with follow-up articles on the Blog section of the site. The Blog offers additional eco-friendly tips and articles relevant to today's industry.**
